

Dear Dr. Boyer and Staff,

I just wanted to let you know how much I enjoyed coming to your dental office today. From the friendly greeting from Vanessa at the front desk to seeing Andres and you, Dr. Boyer you all made me feel comfortable and treated me like family.

I can't express to you how very pleased I am with my dental implants and bright new dentures. They feel like natural teeth, so secure and comfortable. I've never before had such a bright and pretty smile and I sure don't mess all the mess and goop I had to deal with with my old regular dentures.

Dr. Boyer, your calm, unhurried, reassuring and patient "ger" manner and professional treatment are very much appreciated. I would be happy to recommend you and Elite Dental Implant Center to anyone needing or considering dental care and give you and your staff my highest approval rating.
